DATA SUMMARIES

(S/NF/SG/LIMDIS) Following are perceived highlights from each source. The period covered is 26-28 October 1993.

- (S/NF/SG/LIMDIS) Source A:

-- There will be no attacks wherein U.S. Forces are killed in Somalia for the foreseeable future. Decisions will be made for peace eventually through negotiations. U.S. fighting in Somalia will not be escalated. There will be a promise of peace by political negotiations.

- (S/NF/SG/LIMDIS) Source B:

-- No attacks of American assets by Somalia forces will occur in the near future. The U.S. commanders intent is to lie low and allow the two major clans to "fight it out" for a while.

-- A small unit of U.N. troops will inadvertently stumble into an unmarked portion of the "green line" and will be trapped in a fire fight between two large opposing groups.

- (S/NF/SG/LIMDIS) Source C:

-- Snipers are currently taking "pot shots" at U.S. military personnel and installations in Somalia. This will continue until U.S. or United Nations envoys go to Somalia and have political talks among rival clans which will occur in the near future.

-- The American presence in Somalia will continue to be one of a military training exercise until peace can come to that area.

-- The fighting that is going on in Somalia is between rival clans of that country.

- E. SESSION SUMMARY:

Five American soldiers/POW's are currently being held in the building so located on the acetate and sketched in the accompanying diagrams.

The Americans are located on an upper floor of the building in a series of 3 rooms. This building (or one close by) is associated with grinding and there is a strong, sweet smell reminiscent of fruit. It has a plain, stucco front with prominent dark colored timbers or wooden beams.

There is the concept that the vicinity of this building is "a city within a city". There is a nearby building which has a "museum" feeling about it. There are a number of cultural items i.e. artifacts and this building has complex designs on the walls.

The Americans have been moved around in large, cargo-type trucks. There is an overwhelming expression of torture, mistreatment and injuries that are very apparent. Feeling that one has recently died and is covered with a heavy, off-white cloth. There is a large box/chest type object near this individual. Does not feel as if this individual is with the others.

There is a small faction within the hierarchy which wants to lead the Americans to safety. Two of these individuals are involved with guarding the Americans in the building.
